

# PANTHER SENTINEL

Volume XX

Salinas, California, Friday, February 2, 1951

Number 14

## AS WE SEE IT

By GEORGE JACKSON

Confusion concerning the situation of college students in the selective service program has been heightened by a recent announcement by the defense department which gives students a chance to select the branch of service they prefer before they are drafted.

Under this plan students shall be entitled to deferments during the year in which they receive their induction notices so that they might enlist in any service which is open. The enlistment must be made during the two-month period ending 30 days before school ends.

The big catch is that the selective service law positively states that no one can enlist in any branch of the service after receiving his induction notice. It would seem that the new law leaves the choice up to the individual draft boards, for they could either defer or draft a student, depending upon which meaning of the law they wish to choose.

However, the situation might not be quite so bad as the law, as written, might indicate. The general interpretation seems to be that students who receive their pre-induction notices will be postponed till the end of the school year. During the final 30 days of the school year, they may ask for a reopening of their case by their draft board, automatically canceling their earlier induction order and restoring their lost right to enlist.

This latest announcement has had about the same effect on the student that the whole program has had during the past. The student just doesn't know whether he is coming or going. He neglects his studies, shows lack of interest in college affairs, and loses all his incentive for work.

It's about time the defense department came out and clarified the draft situation as it pertains to the student. There has been too much lost as a result of the slipshod method which has been followed, or not followed, in the past.

Because of no definite policy being followed by draft boards throughout the nation, a student could not be able to know just where he stood in regard to induction. One board might defer a student while another might draft him.

Hartnell has been hit no harder by the loss of students who drop school to enter the armed forces than the rest of the colleges throughout the country, but approximately 10 per cent of the men students have dropped school to enter the service.

Surely the defense department has by now realized the situation

### 95 Students Are Now on Probation Says Mr. Girdner

By DICK JOHNSON

"On probation" cry 95 of the students now at Hartnell.

These are the unfortunate souls who did not make that all-important "C" average during the past semester. This number of probationary students is exceptionally high, Jerry H. Girdner, dean of guidance, reports.

Fifty-four of these students are on what is known as straight probation. If these people do no better than maintain their present grade average or raise it somewhat they will find themselves on the cold outside. On the other hand, if these students show some improvement, or raise their averages to at least a "C," they will be allowed to remain as one of us.

Each of the 19 on strict probation must raise his or her grade average to a "C" or better by the end of the semester or he will have to suffer the fate of all who stray from the class of those who diligently study.

The remaining 22 who must undergo careful observance by the faculty heads are on what is known as one-semester trial. These students are mostly ones who have come from other schools where they had a grade average of less than a "C." They have problems very similar to those of the strict probation students.

### Gatemen Donate Services to Charity

Mr. Frank Pittman has announced that his staff who work the basketball games will donate their services for the charity game tomorrow night. Their salaries will be added to the receipts of the game to go to the March of Dimes.

### Second Semester Enrollment Shows Sharp Decrease

With the armed forces taking a heavy toll, the midsemester registration total at Hartnell shows a 200-student slump from last year's 956. This semester's total is 752.

Of that 752, 75 are the new students with the remaining 677 being the students from last semester.

A breakdown of the 75 new students shows 47 of them in the freshman class, 30 of them men and 17 women; and 18 in the sophomore class, 14 men and 4 women. In the special division there is one new man and nine new women students.

The freshman class has 346 students, 220 men and 126 women; the sophomores have 283 students, 197 men and 86 women; and the special division has 14 men and 33 women for a total of 47 returning students.

This slump in Hartnell registration has been mirrored by colleges over the entire nation. Most of the slump is in the male population of the colleges as many of them are either enlisting or being drafted into the armed forces.

### New Radio Program Planned for KDON

In addition to the regular radio program, "College Is the Life," the radio class is contemplating adding another 15-minute broadcast. This broadcast will be a dramatics program similar to the one given last years, says Mr. Hal H. Ulrici, instructor.

## Foreign Students Hosted by Interclub Council

By JACK ALBERT

Forty-one foreign students, representing more than 20 different countries, were guests of Hartnell College Monday evening. They are touring California under the auspices of the National Student Association in co-operation with universities, colleges and junior colleges in California.

The group of 11 girls and 30 boys arrived at the Hartnell campus at 6 p.m. by Greyhound bus. A committee from the interclub Council was on hand to welcome the touring students and escort them to the cafeteria where a dinner had been prepared for the students by the cafeteria staff. Cost of the dinner was paid by

the Grower-Shipper Association and the Salinas Junior Chamber of Commerce.

Mr. Lemos, president of Hartnell, greeted the foreign students. He was followed by Mr. Henry Willis from the G.S.A. who spoke about the lettuce industry in the Salinas Valley and the importance of the industry to the nation.

A variety of entertainment was provided for the group by Robert Ascona, Beverly Silva, Ralph Roland, Helen Mighotto and Freda Ledford.

Accommodations to stay overnight at private homes were arranged for the foreign students by the interclub council so that the students could gain a better in-

sight into the American way of life.

At 8:30 a.m. the following day the group's tour was climaxed by an inspection of the P.G. and E. Moss Landing steam plant, 15 miles north of Salinas.

The bus was met at the main gate of the steam plant by Phil George of P.G. and E., who made five separate groups of the students and provided a guide for each group to tour the plant. The guides were well versed in the operation of the plant and answered all the questions addressed to them by the students.

The 90-minute tour began with an inspection of the outside facilities.

(Continued on Page 3)

## Red Cross to Send Mobile Unit Here When Enough Donors Sign

Hartnell College students will be given an opportunity to take part in the American Red Cross national blood program by contributing the needed blood in late February or early in March. Under the supervision of the Salinas Valley Chapter a mobile unit will come to the college when approximately 100 students have signed pledge cards to donate.

will be the official publication, The Panther Sentinel, and pledge cards will be available from staff members, members of the student commission, and in the college main office.

In order to donate, students under 21 years of age must have the permission of their parents or guardian.

At the present time the drain on the supply of blood is tremendous because of the Korean war. The blood collected is used by the Red Cross for national emergencies, local needs, and the Korean war. However, the war demand for blood is so great that nearly all blood donated is immediately rushed to the Korean area.

Exact details of procedure concerning the process of donating the needed fluid will be worked out with the Red Cross when the required number of donors has been secured. Students will be dismissed from class when they are to donate, President John B. Lemos said recently.

Panther Sentinel Editor George Jackson has urged all students to come to the service of their community and country and take part in the blood donor program. He said that if this first scheduled drive should prove successful, there would be more such activities carried on during the remainder of the year.

Because of the thousands of American men killed and wounded in the fighting in Korea, the imperative need for blood can be understood by all the citizens back here in the United States. A

(Continued on Page 2)

## Men's Club Petitions Due in Office Today

All candidates for the offices of vice-president and treasurer of the Hartnell Men's Club must file their petitions in the main office today, says Club President Bob Childs.

The office of vice-president was formerly held by John Piini who joined the navy, and the former treasurer was Dick Kampa who was recalled into the air force.

Election of these officers will be held Monday, February 5.

## Diane Tripp Has Only 'A' Average

Eighteen and one-half units and 55½ grade points add up to a straight "A" average for Diane Tripp, first semester freshman, the only Hartnell student to receive such a high average for the past semester. She is a graduate of Watsonville High School, preparing to enter Duval Nursing School.

Miss Tripp did not attain these high scholastic marks in entirely "snap" courses, either, for she had such classes as Spanish on her schedule. Her interest in music was indicated by the fact that she is taking glee club, and other courses offered by the music department. Even with this interest in music, however, she is continuing with her prenursing course.

Miss Tripp lives at 9 Kenyon Avenue in Watsonville where she attended high school before coming to Hartnell at the beginning of last semester when she established her rare and enviable grade record.

### AS WE SEE IT . . .

(Continued From Page 1)

in which the college student has been placed and will act to remedy this situation. Regardless of what the final outcome is concerning the drafting of college students

## Commission Discusses Issuance Of Many Student Body Cards

Chief topic of discussion at the regular commission meeting held last Monday was the issuing of student body cards to persons other than student body members and faculty. According to a report of a committee headed by Marge Mathers about 200 persons other than faculty and students receive student body cards.

General feeling of the group was that action should be taken by the commission to regulate the issuance of cards to persons not directly connected with the college as students or faculty members. Included in the group now receiving cards are some truck drivers, cafeteria employees, workers in the Hartnell College district office, janitorial staff, and persons who clean up the stadium after football games.

Action on the matter was delayed until a more complete report could

it is necessary for the department to come out and definitely tell the college student where he stands.

Only in this way can the student continue to be a true student and not an individual who has to run for the newspaper each evening to see if he will be drafted in the next quota for his draft board.

be made by the committee, but it is almost a certainty that the matter will come up for action at the next meeting on Monday.

Also on the agenda for the meeting next Monday will be the recommendations of a nominating committee for the offices of freshman and sophomore representatives, which will be filled by appointment by the commission.

Both offices are now vacant as a result of changes in the commission. Sophomore representative office became open when Bill Bell was named to the office of vice-president. Former Vice-President Ken Yoder filled the office left vacant when President Bob Burton resigned late last semester. The office of freshman representative became vacant when Hector Burke did not enroll at the beginning of the second semester.

## Hartnell Players Schedule 'The Happiest Years'

Hartnell Players' next production, "The Happiest Years," will be given on February 22, 23, and 24.

The play, written by Thomas Coley and William Roerick, is a satire on family life. Richard Johnson, played by Thomas Rogers, is a veteran attending college on the G.I. Bill. He and his wife, Martha, played by Jackie Day, live with Martha's parents, Clara and Bertram Graves, played by Barbara Nye and Stan Lovet.

Complications arise when Richard has to do a lab report and enlists the aid of a fellow student, Joan Miller, played by Helen Wolber.

## First Assembly Well Received

Last Friday's assembly proved to Hartnell students that they are off to a good assembly season. Don Schrupp, commissioner of rallies and assemblies, brought three outstanding entertainers to Hartnell's men's gym. The three entertainers, Evaristo Cravea, Bobby Finch, and Anne Leal were met by a large and enthusiastic audience.

Finch amused the Hartnell student body with a number of clever magic tricks and wound up his sparkling performance with two original dance numbers. He danced to "Toot-Toot-Tootsie Good-Bye" and then gave an interpretation of the Charleston.

Evaristo Cravea of San Juan gave a magnificent rendition of "Mala-guena," "Deep Purple," and "Saber Dance." Cravea was well received by the audience.

Pantomimes were presented by Anne Leal of Santa Cruz. Miss Leal, using phonograph records as a background, mugged through three hilarious numbers. Her act was a fitting climax to a very enjoyable assembly.

## Lemos Reveals Procedure During Emergency Attacks

By TED FALEY

Final recommendations for the procedure to be followed in the event of an emergency have been submitted by the disaster committee of Salinas city schools and is now up for approval, according to President John B. Lemos.

These recommendations cover the following emergencies:

earthquake, fire, alert warning of impending attack, bombing, and care of displaced persons in case of disaster in neighboring areas, stated John B. Lemos, committee chairman.

In the event of an earthquake, all students are to move to the wall farthest from windows and stand facing the wall. They will hold this position until the all-clear signal is received from the president's office. If the quake is serious the students will be evacuated, room by room.

In case of a fire, the signal is a two-three on the Klaxon horns. The building is to be evacuated immediately and all students are to go at least 50 feet from the building.

### ALERT SIGNAL

The procedure to be followed in case of an alert warning, signal—one long horn blast—is that the teacher in each class will explain to the students that it is an alert and tell them what to do if and when the second signal comes.

On the second long horn blast all pupils who are to ride buses march out of the building to the bus loading area. All pupils who are to walk, march out of building to the front lawn or gym side of the building.

Then, if the evacuation signal is given, a series of short horn blasts, the buses leave at once and the nonbus riders disperse for home immediately.

If the only warning of attack is a strong and brilliant flash of light or a very loud explosion, the student is to fall to the ground wherever he is and cover his head with any material that may be at hand. He is to hold this position until directed to rise. The committee adds this warning, "Don't be alarmed over temporary blindness. This will pass in a few minutes. Do not attempt to move about until sight returns."

### BUS EVACUATION

Buses used for evacuation of Hartnell students are Number 17 to Pacific Grove, 22 to Gilroy-Morgan Hill in place of 7-A, 23 to King City in place of 8-A, 27 to Santa Cruz in place of 9A, and 29 to Santa Cruz in place of 10-A.

All students attending A. and M. at the time of evacuation and who live in Alisal will walk home. Bus 20 will park at A. and M. in the morning to bring in high school and junior college students for transfer to proper buses and Bus 8-A will do the same in the afternoon.

The committee recommended one disaster drill each week for four weeks and then one drill a month thereafter.

### BLOOD DRIVE . . .

(Continued From Page 1) though we in the States have not felt the seriousness of the war as great as the men fighting, we should all do our patriotic duty and join the drive at Hartnell, said Jackson.

## High Averages Announced For First Semester

By DICK JOHNSON

Ah, to be a genius!

So goes the cry of all but nine students at this beloved institution. But the nine bright students, who fell closely behind straight "A" Student Diane Tripp, are in a group where they are either smart enough, or talented enough, in their field not to worry about being a genius.

Leading the parade of above-average individuals for the semester just concluded is, of course, the aforementioned Miss Diane Tripp. One-half grade point shy of a straight "A" average is Beverly Carlsen, who accumulated 31 grade points from her 10½ units.

Following closely in the grade department were these seven students, none of whom acquired less than a 2.64 average: John Hannon, (4 A's, 1 B), 15½ units, 43½ grade points; Ronald Millard (2 A's, 1 C), 14½ units, 42½ grade points (A. and M.); Juanito Nasarro (2 A's, 1 C), 14½ units, 42½ grade points (A. and M.); Catherine Russo (5 A's, 2 B's), 17½ units, 49 grade points; Raymond Watts (2 A's), 14½ units, 42 grade points (A. and M.); John Hendrickson (5 A's, 2 B's) 18½ units, 53 grade points; and Gayle Caskey (4 A's, 2 B's) 15½ units, 40½ grade points.

## Archers Display Skill in Show

Champion archers entertained Hartnell students at yesterday's assembly. Roy and Bob Dill of San Diego gave students a short history of archery, then amazed their audience with such tricks as shooting a balloon from an assistant's mouth.

The two boys used 30-pound bows to perform their trick shots. They perfected their art in the hills behind San Diego and in Old Mexico. Both boys are considered to be among the greatest living bowmen of the younger generation.

The two handsome young men have brought to mind the days of Robin Hood and his merry men and, no doubt, revived an interest in archery for many students.

The boys were introduced by Don Schrupp who acted as master of ceremonies for the program.

## Few Attend But Winter Ball Called Successful

By FARRELL MOORE

And a good time was had by all! A corny phrase, but it expresses exactly the sentiments of those who attended the Winter Ball, January 19, at the Monterey Peninsula Country Club on the 17-Mile Drive. Although the attendance was small, only 50 couples, the ball was quite successful, according to Marge Mathers, general chairman.

The ball was held from 9 p.m. to 1 a.m. with a four-course dinner being served from 9 o'clock. After dinner there was dancing, with music for the affair furnished by Don Dean and his Modernaires from San Jose.

Special credit should be given to Joan Swenson and her decoration committee for the excellent decorating job. The decorations were of a wintry theme, with snow sprinkled around liberally, and white branches, snow balls, and silver bouquets comprising the other decorations. The use of special lighting completed the atmosphere of winter time.

Also deserving of special mention are Robin Lowry and her commit-

tee on publicity. Their efforts toward publicizing the ball contributed greatly to the success of the affair, according to Marge.

Marge stated that due to a board of directors' meeting just before the ball, the bar was unexpectedly closed. This was to the disappointment of many, but, consequently, no incidents were reported.

Among those who enjoyed the dinner and dancing at Del Monte that evening were:

Mr. and Mrs. J. B. Lemos, Mr. and Mrs. Jess Regli, Mr. and Mrs. Ed Adams, Mr. and Mrs. Harold Ulrici, Mervyn Ferrera, Charlene Gustavson; Dick Childs, Pat Wagner; Bill Menees, Marie Barranco; Fred Swan, Marge Mathers; Pete Jorgensen, Robin Lowry; Lloyd Oksen, Gayle Caskey; Pui Tsang, Dorian Lee.

Cecil Conner, Joyce Rippey; Leon West, Joyce Toney; Carl Hurd, Celia Phelan; Carl Bartlebaugh, Deon Dyer; John Alsop, Marilyn Hendrix; Mr. and Mrs. C. W. Tholcke; Ken Machado, Bev Krikac; Jock Murray, Pat Temple; Andy Comi-

nos, Dolores Settrini; Henry Agostini, Jeanette McPeck.

Pat O'Bannon, Pat Church; Andy Ausonio, Theresa Griva; Bob Heinzen, Greta Jerne; Ray Welch, Virginia Pioda; Mr. and Mrs. Charles Jackson; Bob Roebuck, Jackie Jury; Frank Paz, Norma Jean Sprague; Don Jacop, Phyllis Butters; Ralf Goings, Shanna Powell.

Darrell Millsap, Joan Jensen; Sally McAnaney, Bob Nunes; Ann Terry, Joe Hootman; Jim Graefe, Raylene Beck; Don Day, Nancy Jones; Dick McClellan, Sidney Richardson; Bob Davidson, Ruby Bennett.

George Malone, Barbara Farr; Lutz Muenster, Judy Beeck; Bob Peavy, Peggy Maneely; Kay Buchanan, Peggy Wagner; Warren Montague, Sue Price; Dermond Tucker, Ester Cosmos.

Marge Mathers predicted that, because of the small group which attended the Winter Ball, the Spring Prom would probably be held at a much smaller place. As yet, this location has not been decided upon.

## Carlisle Solos To Get License

Mr. R. T. Carlisle, astronomy and general science instructor at Hartnell, completed his first solo flight this month. It's "lots of fun," was his comment.

His first flight instruction began in the fall of 1949 during the spare time he had on week ends. He had to drop flying a month later when personal business intervened, and he began again in the fall of 1950. On January 13 he completed his flight instruction with a written examination and a solo flight. He now holds a student pilot's license.

Mr. Carlisle's flight instructor was Charles King of the Hartnell Flying Club.

## FOREIGN . . .

(Continued From Page 1)

ties of the plant. Later the turbine room and the main control room, where the whole plant is operated from, were inspected. The part that thrilled the students most was a trip to the seventh floor of the steam plant. From here the students got a view of the complete plant, and a view of the Pacific Ocean from which the water is drawn and used in the operation of the plant.

All of the students are returning to their respective native lands in the near future. Many of them are returning this year and with a few exceptions they all will have returned by 1955.

## John Hannon New Newman VP

John Hannon has replaced Dick Kampa as vice-president of the Hartnell Newman Club. This announcement was made after the clubs' first meeting of the semester last Wednesday when Father Patrick Deegan welcomed new members, and a membership drive was opened.

Former Vice-President Kampa was also a former member of the United States Air Force reserve, and he has now been called back into active duty. This left the vacancy which has been filled by Hannon.

Speaking about the membership drive, Miss Eleanor Perry, advisor, said the club would welcome any students who wished to attend its meetings.

## Textiles Class Goes to Carmel

The textiles class of Hartnell went over to Carmel to the Ermen Studio of Weaving yesterday. The purpose of the trip was to further acquaint the students with the different types of looms and the various processes of making cloth.

Students also learned a good deal about the different textures and weaves of cloth. According to Miss Mildred Novotny, home economics teacher, the class plans to go over to Carmel again soon to see some of the many other weaving and crafts shops there. Things they can learn there will tie in directly with the subjects now being studied in class.

## A&M Enrollment Up, Says Fowler

Enrollment for the second semester at Hartnell A. and M. shows an increase, over the first semester in some courses, according to Lyman C. Fowler, director of A. and M.

The aviation class has received an increase of junior college students this semester. Agricultural subjects were also favored by many of the students.

At the present time the over-all enrollment at A. and M. is slightly less than that of the first semester.

The reason for this decrease is attributed to the fact that a large number of high school students are quitting school. Some of the high school students are taking on full-time employment while others are enlisting in the armed forces.

## Hartnell Skiers Plan Trip This Week End

Twelve students made another trek to Donner for a week end of skiing. The students, accompanied by Miss Luella Wiens and Mr. James Stark, stayed at the Ski-Inn Lodge near Soda Springs. Tom Mill, president of the Ski Club, said that the snow was good and good skiing was enjoyed by all who attended.

The long vacation between finals and the start of the second semester gave the skiers a chance to take advantage of the excellent snow and skiing weather. Those who attended are: Nancy Ferris, Nancy Bardin, Frances Englehorn, Art Hedges, Al Janes, Tom Mill, Guido Gysler, Del Howe, Winston Moore, Howard Menees, Charles Martin, Doug Bird, Miss Wiens, and Mr. Stark.

## CAMPUSOLOGY

By PAUL PARSONS

Acrobatics on skis were performed by Al James during the last ski trip. Al yelled, "Track," and started down the hill. The first thing that met his eyes were two bamboo poles stuck in the snow. Al, in an effort to do a slalom between the two poles, zigged around the first pole but failed to zag around the second when he discovered that the two poles marked a stump buried in the snow. No injuries occurred.

Not quite so fortunate was a friend who just dropped in. He has a black eye, a few bruises, and a few other scars of battle. As he tells it, he was in the phone booth talking to his girl friend when an irate citizen got tired of waiting and pulled him out. "I didn't get mad when he threw me out," said my friend, "but when he threw my girl out I got mad and hit him."

Something old, something new,

Something borrowed, P U.

"Everybody's gotta get into the act!" Jimmy Durante said it, and Andy Ausonio did it. At a recent assembly one of the entertainers walked to the front row of the audience and planted a kiss on Andy's forehead. Says Andy, "WOW!"

Betty Ann Cunningham and Bob Childs were walking down the back steps of the men's gym. Betty, being intoxicated with Bob's intoxicating company, staggered and fell. Betty is showing her bruises on request.

Here's a note a contributor stuck to my front door with a knife:

"Dear No. 1: I sure do think that boy next to No. 3 is cute. Carolyn says he has a personality like a snail, though. He's probably just shy. What system do you use on shy boys? From No. 2"

"Dear No. 2: I don't have a system really — especially on shy boys because I'm too much of a snail myself. Therefore I'll refer this to No. 3. From No. 2"

"Dear No. 2: Just talk to him every chance you get — about history, is an idea. He also sits next to me in geometry. Be real friendly. It may help. Want to trade seats? From No. 3"

"Dear No. 3: Yes! But not right now — that might be a little obvious."

## MARIN, GOLDEN GATE CLUBS DEFEAT PANTHERS LAST WEEK

Last Friday night Hartnell's cage team moved up to the home court of Marin Junior College in the second league game of the 1951 season. The Panthers took the lead early in the game and held it during most of the game, but were forced into an overtime and lost, 57-55, in the extra time.

Coach Ed Adams felt that the loss was unnecessary and fears that the team may be the victims of a

midseason slump. A new leader was put forward in the Panther scoring column. Dick deLorimier moved up to the Number One spot with 17 and Bob Ballard bagged 16. Fred Willson was well covered and found it impossible to make his usual number of points.

Saturday night the Panthers entertained the Golden Gate College quintet on the local floor. The San Francisco five had the Pan-

thers outclassed and took the victory, 67-52. They were an older club with more experience and more height than the Panthers could muster.

DeLorimier led the locals for the second straight evening with a total of 22 points, and Ballard followed with another 16. Willson managed to capture a total of 11 points over the careful guarding of the tall Golden Gate center.

Last week at the weekly assembly the gridders of this year were presented with their jackets on Hartnell's behalf. Pictured above are Co-captains Bob Burton and Ev Skrine admiring the bookends which the team presented to Coach Ab Wilson.

## Santa Clarans Fell Panthers

On January 20, the Santa Clara Frosh met the Hartnell Panthers on the Hartnell court and handed the Panthers an 80-65 defeat. The Panthers played well for the first 30 minutes and then appeared to fold. The Panthers held the lead with eight minutes to go, when Santa Clara began her final push.

Willson and DeLorimier led the scoring for Hartnell with 21 and 18, respectively. The team showed great potentiality but seemed unable to make the final effort needed for the win.

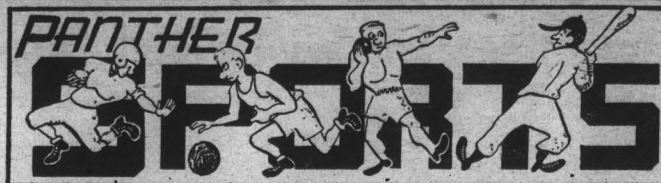

## Panthers Split With San Jose

Hartnell drew a split with San Jose State's freshmen cagers. Playing here on January 13, the Panthers were triumphant, winning 63-59. Ten days later the Panthers journeyed up to San Jose where they suffered a 66-60 defeat.

In the earlier game the Hartnell team played good ball and sustained a constant lead to score the decisive win. Fred Willson led the scoring column for the locals, again garnering a total of 17. Following Willson were DeLorimier and Steinbach with 13 and 12.

In the return game at San Jose the Panthers suffered a letdown and were defeated thoroughly. The defeat was the second in a series of losses for the basketball team.

Willson also led the scoring in the second game with a total of 21 while DeLorimier gathered 18.

## Contra Costa Rematched With Panthers Tonight

Tonight the Panthers play host to the East Contra Costa Vikings. The Vikings may be remembered for their outstanding play in the Hartnell Small Colleges Basketball Tournament last December. In the final game of the tournament the Contra Costa team was defeated by Hartnell only after putting up a tough battle.

Some of the Vikings will be well remembered by the local fans, the most notable among them being John Gallo. Gallo was selected to the all-tournament and was tabbed by the sportswriters covering the event as the best of the tournament.

Contra Costa, also listed as Mount Diablo J.C., should give the Panthers a good duel, and should provide a fine evening of basketball. Starting in the Hartnell lineup will be the same group which faced the Vikings earlier: Fred Willson, Bob Steinbach, Dick deLorimier, Bob Ballard, and Bill Menees.

Hartnell will be out to gain her second league win. In previous league play Hartnell has beaten Menlo and lost to Marin.

## Harts Beat Menlo In League Opener

On January 12 the Hartnell cagers opened this year's league play in the local gymnasium, meeting the Menlo Oaks. The game was well played and remained undecided until the final seconds. The Panthers came from behind in the waning moments, and a tip-in as the final buzzer sounded gave the hometown boys a 72-68 victory.

Halftime found the Panthers trailing, 38-34. In the second half the Hartnell men showed new spirit and quickly overtook the Oaks. Leading scorer for the Panthers was again Fred Willson with 26, and he was followed by Bill Menees and Dick deLorimier with 18 and 14.

Scoring became a duel for Willson and the opposing Menlo center, Duggins. Duggins copped the top-scoring honors for the evening, however, gathering a total of 27 to nose out Willson by one.

Free throws were an important factor in the contest, if not, perhaps, the decisive one. The Panthers made 14 while missing only 4, and the Oaks succeeded only in

## 'Dimes' Charity Tomorrow Night

Saturday night the Panthers will play the home half of a home-and-home engagement with Westmont College. Last year the Hartnell team traveled to the Santa Barbara campus of the visitors. Westmont will be seeking to even the series and avenge their defeat at the hands of the Panthers last year.

Main attraction of this year's game is the fact that all gate receipts will be turned over to the March of Dimes charity. Students will be required to pay admission and student body cards will require the payment of student rates.

Westmont, situated far to the south, usually fields a strong team in the hardwood sport. Little is known of this year's team, but they can be counted upon to make a good scrap for the locals. The usual starting group will go at it for Hartnell.

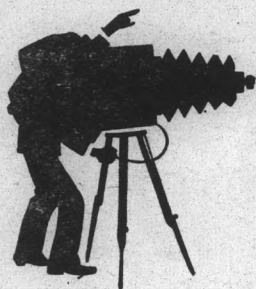

## Broadway Clowns Entertain Here

Action in the Hartnell gymnasium Monday night featured the New York Broadway Clowns and the Salinas Recreation Loop All-Stars. A well-filled house saw the Clowns defeat the local group by a 55-51 score.

Playing for the local All-Stars were several of Hartnell's former sportsmen. Doing an outstanding job at the center post was big Bill Whisler, a former casaba man for the Panthers. Other Hartnell men in the fray were better known here for their skills on the gridiron. Footballers playing basketball were Bill Whited, Ev McAdams, and Francis Rianda.

In the final minutes of the game the Clowns put on their show, which is similar to that of the more famous Harlem Globetrotters. They gave the crowd their adaptation of basketball, using the rules of baseball, football, and finally no rules at all. Clever passing and sharp shooting were displayed, and the locals found it difficult to cope with the humorous antics of the professionals. The game was sponsored and handled by Hartnell College.

gathering 10 while missing 7. It has been noticeable this year that the Panthers have been much improved in the free-throw field and it is apparent that the long practice on the gift shots is paying off in wins.
